Panchayat Board Kunjal

(South Kanara)

To:

Sri, A. B. Shetty

Health Minister to The

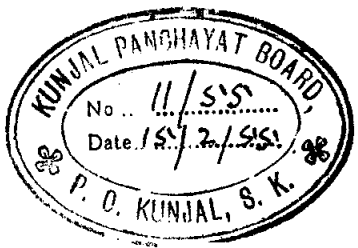

Government of Madras

Dear Sir,

I am told by The Supervisor of Industries that there is a Power Drill working at Manipal.

Kunjal is a Rocky place and there is no water for six months in a year.

There is only one Dist. Board dry well. An attempt had been made by the Panchayat Board Kunjal in 1941 with ~~hand~~ hand boring set and bore up to 70 feet. As the Rock was very hard, the then Industrial Engineer Madras, who had inspected the set had advised the President Panchayat Board Kunjal to stop boring with the hand boring set and to take up the work by Power Drill of the Industries Department.

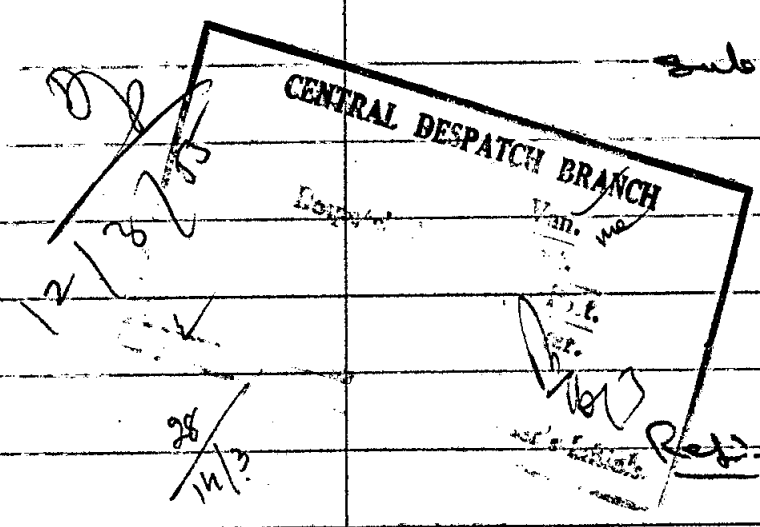

A. Subba Rao
President, Panchayat Board,
Kunjal, S. Kanara.

Copy to The Dist. Collector
of South Kanara.

Health, Education and Local
Administration Department,
Madras.9.

No. 23933 L1/55 dt. 9-8-55.

Sub: Industries--District Engineering Branch--Kunjai
Panchayat (South Kanara) Deepening well with
Power Drill--regarding.

- Ref: 1. Memo. No. 17630 H VI/55-2 Health dated 12-5-55 from
Health, Education and Local Administration Dept.
2. Memo. 17630 H VI/55-3 dt. 21.7.55 from Health,
Education and Local Administration Department.

The Assistant Director of Industries and Commerce, Mangalore
to whom the matter was referred to has reported that there are
nearly 450 residents in Kunjal area and that a daily cattle
shandy is conducted for eight months in a year. The residents
are reported to be bringing water for drinking purposes from a
pond two to three furlongs away. The only District Board well
40 feet deep is reported to get dry for 6 months in a year from
January. The region is generally ~~very~~ rocky below 25 or 30 feet.
Therefore the boring operations conducted by the Panchayat Board &
during 1941 have been unsuccessful. To provide the village with
sufficient water, I suggest for the consideration of Government
that a deep bore well may be tried up to 350 feet depth.

An approximate estimate for putting down a borewell
is enclosed. It works out to Rs. 5250/-.

It is reported that Panchayat is not in a position to meet
the expenditure due to the poor financial condition. I,
therefore submit that Government may sanction the expenditure and
ask the Collector of South Kanara to include this in the list of
Rural water supply works in his District if it is not possible
to execute it as a local development work.

for Director of Industries and Commerce. 12/8

Encl: 1 estimate.

ROUGH ESTIMATE FOR WORKING A DIESEL DRILL PER DAY.

	Rs.	A.	P.
1. Diesel oil	4	0	0
2. Lubricating oil, grease etc.	3	0	0
3. Charcoal	8	0	0
4. Labour charges @ Rs.1-8-0 per head per day	7	8	0
5. Hire charges of the set per day	8	0	0
	30	0	0

9

ROUGH ESTIMATE FOR PUTTING DOWN A 10" x 8" x 350' DEEP BORE, AT KUNJAL (Neelavara village, Udipi Taluk) In South Kanara District.

	Rs.	A.	P.
1. Transport charges of the drill and accessories to and fro from Mangalore R.S.	1000	0	0
2. Working charges of the drill, for 4 days to bore up to 30' in soil (roughly)	122	0	0
3. Working charges of the drill for 107 days to bore from 30' to 350' from G.L. in hard rock (at an average of 3' per day.	3263	8	0
4. Chisel tempering shed	75	0	0
5. Cost of lining pies. (approximately)	600	0	0
6. Watchman's pay for 4 1/2 months	135	0	0
7. Contingencies	54	8	0
Total	5250	0	0

The estimate does not include the cost of the pump to be installed in the bore on completion of the work. This can be given only after finding the yield of the bore on completing the work.
